17 (CURRENTLY AMENDED) 38. I claim a game for at least one player comprising the steps of:

18 a) preparing at least one first deck of cards representing the possible outcomes from a dice
19 means for determining a random number between a predetermined minimum and a predetermined
20 maximum;

21 b) preparing at least one second deck of cards representing the possible outcomes from a dice
22 means for determining a random number from a predetermined minimum and predetermined
23 maximum;

1 **b** c) providing at least one first wager location and at least one second wager location for
2 accepting a wager on at least one statistical event associated with the random generation of dice rolls
3 according to a set of rules based on statistical odds of the occurrence of specific dice rolls;

4 **c** d) accepting at least one wager on the at least one first wager location;

5 **d** e) selecting at least one first card from the at least one first deck at random using an
6 electromechanical playing card handling apparatus for randomly shuffling and dealing the at least
7 one of said cards;

8 **e** f) displaying the at least one first card;

9 **f** g) satisfying wagers if the at least one first card matches the at least one statistical event[.];

10 **h)** accepting at least one wager at least one second wager location;

11 *i)* selecting at least one second card at random using an electromechanical playing card
12 handling apparatus for randomly shuffling and dealing the at least one second card from the at least
13 one second deck;

14 *j)* displaying the at least one second card;

15 *k)* satisfying the at least one second wager if the at least one second card matches the at least
16 one statistical event.

17 (CURRENTLY AMENDED) 39. The game of claim 2 38 wherein the at least one first deck further
18 comprises at least one third deck of cards representing the outcome from a dice means for
19 determining a random number between a predetermined minimum and a predetermined maximum
20 and wherein the step of selecting at least one first card at random further comprises selecting at least
21 one first card at random using an electromechanical playing card handling apparatus for randomly
22 shuffling and dealing the at least one first card and selecting at least one second first card from the
23 at least one third deck of cards using an electromechanical playing card handling apparatus for

1 randomly shuffling and dealing; and wherein the step of displaying further comprises the step of
2 displaying the at least one first card second card and wherein the step of satisfying wagers comprises
3 the step of adding the at least one first card and at least one second first card together to determine
4 if the at least one statistical event has occurred. the step of preparing at least one second deck of
5 cards representing the outcome from a dice means for determining a random number between a
6 predetermined minimum and a predetermined maximum and wherein the step of selecting at least
7 one first card at random further comprises selecting at least one second card at random using an
8 electromechanical playing card handling apparatus for randomly shuffling and dealing the at least
9 one second card and wherein the step of displaying further comprises the step of displaying the at
10 least one second card and wherein the step of satisfying wagers comprises the step of viewing the
11 at least one first card and at least one second card together to determine if the at least one statistical
12 event has occurred.

13 (PREVIOUSLY PRESENTED) 40. The game of claim 39 wherein at least one statistical event is
14 determined from the statistical events utilized in playing a game from the group comprised of 1) a
15 traditional craps game, 2) a Four The Money game, 3) a high roller of the month game, 4) a high
16 low craps, and 5) a roulette game.

17 (CURRENTLY AMENDED) 41. The game of claim 40 wherein the first set of cards and second
18 third deck set of cards represent the possible outcomes with a first and second dice having 6 sides.

19 (PREVIOUSLY PRESENTED) 42. The game of claim 38 further comprising at least one special
20 card which represents an object other than a number between the predetermined minimum and
21 predetermined maximum and wherein the display of the special card provides a bonus to the wager.

22 (PREVIOUSLY PRESENTED) 43. The game of claim 42 wherein the bonus is from the group
23 consisting of (1) allowing the player to pick any number from at least one number between the

1 predetermined minimum and predetermined maximum for the value of the special card, (2)
2 providing a multiple payout on wagers, (3) providing a special payout not related to a wager on the
3 occurrence of the special card, (4) providing a special payout related to a wager on the occurrence
4 of the special card, (5) triggering an event to select an additional play, and (6) triggering an event
5 to randomly select an additional amount.

6 (CURRENTLY AMENDED) 44. The game of claim ~~43~~ 42 wherein the special card also bears a
7 number between the predetermined minimum and pre-determined maximum.

8 (CURRENTLY AMENDED) 45. The game of claim 38 wherein the step of selecting further
9 comprises the step of selecting at least one first first card and at least one second ~~first~~ card and
10 wherein the at least one first card and at least one second card each represent a dice roll and wherein
11 the step of displaying further comprises a) preparing a table with a plurality of card locations
12 comprising at least one first card location and at least one second card location for receiving the at
13 least one first first card and the at least one second first card;

14 b) dealing the at least one first card and the at least one second card to the at least one first
15 card location and at least one second card location respectively; to the plurality of card locations;

16 c) allowing the at least one player to select a location from between the at least one first card
17 location and at least one second card location; at least one of the plurality of spaces;

18 d) displaying the card in location the at least one space selected by the at least one player.

19 (CURRENTLY AMENDED) 46. The method of claim ~~45~~ 39 wherein the step of selecting further
20 comprises:

21 1) preparing a table with a plurality of card locations for receiving at least three cards from
22 each deck comprising a first card location, a second card location and at least one third card location;

23 m) dealing at least one first first card at lest one second first card and at least one third first

1 card to the plurality of card locations;

2 n) allowing the at least one player to select two of the plurality of card locations and not
3 select at least one of the plurality of card locations to select two play cards; and

4 o) adding the two play cards to determine the outcome, further comprising the step of
5 allowing the at least one player to select at least two of the plurality of spaces.

6 (CURRENTLY AMENDED) 47. The game of claim 39 46 wherein the step of viewing further
7 comprises comprising the step of removing and reshuffling the at least one first deck of cards and
8 dealing at least one first second card and at least one second second card and at least one third
9 second card from the at least one second deck of cards to the plurality of card location;

10 b) allowing the at least one player to select at least two of the plurality of card locations and
11 not select at least one of the plurality of card location so as to select at least two play cards;

12 c) adding the two play cards to determine a dice roll outcome, adding the at least one first
13 card and at least one second card to determine the resulting total.

14 (CURRENTLY AMENDED) 48. The method of claim 38 further comprising repeating steps [[b]]
15 c through f k until a predetermined target number is generated as the statistical event.

16 (CURRENTLY AMENDED) 49. The method of claim [[39]] 40 wherein the at least one first deck
17 comprises a first first deck and a second first deck and the at least one second deck comprises a first
18 second deck and a second second deck and wherein the step of selecting comprises selecting a first
19 card from the first first deck and a second card from the second first deck and selecting a first card
20 from the first second deck and a second card from the second second deck and adding the first and
21 second cards from the first and second decks to get an outcome from each deck. step of selecting
22 comprises selecting a first card from the first set of cards and a second card from the second set of
23 cards.

- 1 (PREVIOUSLY PRESENTED) 50. The method of claim 38 further comprising the steps of (1)
2 marking the value of the at least one first card with an electronically readable value, (2)
3 electronically examining the cards to locate the marking, and (3) electronically displaying the value.
- 4 (PREVIOUSLY PRESENTED) 51. The method of claim 38 wherein the step of preparing further
5 comprises marking cards with at least two colors; and wherein the step of accepting further
6 comprises the step of accepting wagers on the occurrence of a particular number or a group of
7 numbers or a color.
- 8 (NEW CLAIM) 52. The method of claim 38 wherein the handling apparatus in step (I) further
9 comprises at least one second handling apparatus.
